Introduction
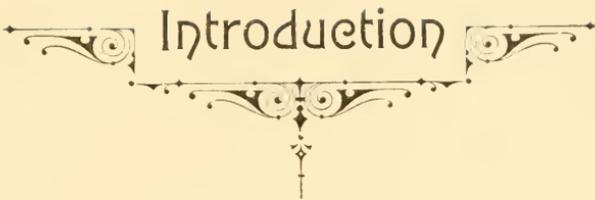

WHEN so many ladies of culture and refinement are endeavoring to beautify their home surroundings by articles of gentle handicraft, and when crocheting forms such a large part of the work turned out, we need make no apology for producing a work which aims to give directions for performing this important decorative art.

The love of home is most frequently indicated by efforts to make home beautiful, and refinement of person is usually denoted by the exhibition of taste in clothing and adornments. In both the ornamental and useful branches of decorative work, crocheting is an important factor.

At the present time, when women are asserting so brave an independence and appear before the world as being able and willing to

support themselves, what art is there which enables them to do so with so much elegant leisure as this? The income derived from skilled handiwork of this kind is considerable and easily acquired.

The author of this brochure has had abundant opportunities, from her long connection with the Western Lace Manufacturing Company of Chicago, to familiarize herself thoroughly with every department of crocheting art. It has been her aim to supply in this book the most complete collection of designs which has ever been published. Each design is so described that the crocheter can, by following the directions given, complete them in a satisfactory manner. The author presents many of the designs as her own original contributions to the art. Others have been selected from various sources, the aim being to present the best and most effective. The large number of illustrations will greatly facilitate the comprehension of the designs.

Trusting that the book will lighten many an idle hour for the rich, and provide the means of earning many a dollar for the poor, the author subscribes herself,

Very respectfully,

Mrs. Livetta White.

Description of Terms Used in Crochet.

Chain Stitch.—Make a loop, throw the cotton around the needle and pass it through. Continue to throw the cotton around the needle and to draw it through the loop on the needle until the chain is of the required length.

Close Chain Stitch.—Insert the hook in the loop of preceding row, and draw cotton through it and the loop on the needle at the same time.

Single Crochet.—Pass the hook through a loop of the last row, bring cotton through, throw cotton around the needle and pass it through the two loops on the needle.

Double Crochet.—Throw cotton once around the needle, pass the hook through a loop of the preceding row, bring cotton through, then take cotton up and bring it through two loops twice.

Half Double Crochet.—Like double crochet, only pass the cotton through the three loops on the needle, instead of passing it through two loops twice.

Treble.—Throw the cotton twice around the needle, and work as double crochet, but bring cotton through two loops three times.

Double Double Crochet.—Throw the cotton over the needle three times, work as double crochet, but draw the cotton through two loops four times.

Picot.—Make a chain of a certain number of stitches, and work a single crochet in the first chain stitch.

Picots can be worked in different ways, which will always be explained in the directions of a pattern.

Ribbed Crochet.—Make a single crochet in the back loop of each stitch of the row last worked. At the end of every row make a chain stitch and turn the work; then begin the next row.

Slip Stitch.—This stitch is used in joining. Take the hook from the last loop worked, pass it through the loop where the work has to be joined; then take the first loop spoken of and draw it through.

This cut represents a mat of larger size; same pattern as No. 21 with additional directions as found below.

The center wheels and the border are the same as in the mat. The two wheels are joined together by top loops of three little leaves while making the last row on the second wheel.

The joinings at the side ch. 6 join in ring, chain 9 set the needle into the third little leaf to the right of where the wheels are joined together, join back into the ring with single crochet. The second row of border is the same as on mat No. 21, skip three stitches and double crochet into the fourth, so the border will not be too full on the sides.

This tidy is same pattern as No. 21 and 1135, only more wheels are joined together which is done same as No. 1135 by joining the little leaves together, 3 on each wheel, leaving 3 leaves on each wheel in center for center joining which are made same as side joinings of 1135, only 9 ch. and into every leaf finishing off in

center ring. The same border is on all this pattern of tidy, but any border can be substituted in its place.
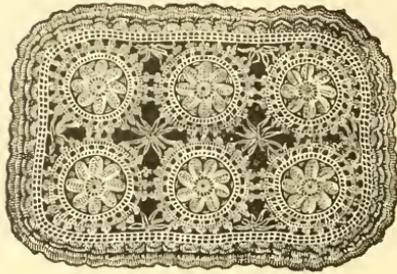

No. 23. X.

We give also a cut of one size larger tidy which is the same pattern throughout as the above.

This pattern is made into bedspreads and shams which are very pretty and durable, made in linen finished cotton.

STAR STITCH.

Make a chain the required length.

1st Row: Raise 4 stitches in the tricotee (or Afghan) stitch. This makes 5 loops on the hook, pick up the thread, draw through all 5 loops, make one ch. Put the hook through the hole formed by this chain stitch, and raise one stitch; raise a second stitch by inserting the hook in the back part of the last of the 5 stitches through which thread was drawn; raise the next 2 stitches on the chain. There are now 5 loops on the hook. Draw the thread through all 5 ch. 1; this ends the second star. Repeat from * across the chain and break off the thread.

2d Row: Join the thread ch. 2; raise the first ch. st., then

insert the hook through the next which is the small hole in center of the first star and raise another; then raise another on the back half of the next horizontal stitch. There are now 4 loops on the hook. Draw thread through all 4 and ch. 1 *, insert the hook through the last hole formed by the last ch. st., and raise a stitch; raise the back half of the next stitch, which is the last stitch of star just made; raise the next which ought to be the center of star in preceding row; raise the following horizontal stitch—always the back half. There are now 5 loops on the hook. Draw thread through all ch. 1; repeat from *; in finishing the row there will be only 4 loops to draw through. It is always best in making sacques or such articles to pick up one more stitch to make the 5 stitches at each side to shape a sloping edge. Every row is made the same as 2d row.

BORDER FOR STAR STITCH SACQUE.

1st Row: Begin at bottom of sacque, make 4 double
stitches in every other star (across bottom only for 2 rows).

2d Row: Make in 1st stitch of 4 double. a chain of 5
stitches; insert the needle in the space between the double
stitches, and make 4 double stitches.

3d Row: Commence at neck, work down the side 4 doubles in every other star; then at bottom 4 doubles in space between the 4 doubles on preceding row (at corners make 8 doubles in the space to prevent the border having a curled appearance).

4th Row (which will be 1st row around neck): Begin at corner of neck, crochet 4 doubles across neck and around sacque; 4 doubles in space between 4 doubles on preceding row).

5th Row: Same as 4th; 1 row of silk.

Now take knitting silk, tie in corner at bottom, make a chain of 8 stitches, fasten by single crochet in the stars omitted on 1st row of double stitches (this will form a scallop of silk in chain stitch), continue across bottom only, break the silk, and commence again at the corner where you tied the silk.

2d Row in silk: Make 8 chain stitches, tie the silk between the 4 double stitches and through the silk scallop (this fastens the scallop down), then make 8 chain stitches and put needle under 1st row of scallops and through center of 4 double stitches, and fasten by single crochet, continuing across the bottom.

3d Row: Commence at neck (tie silk at corner), crochet 8 chain stitches; insert needle in center of 4 double in wool, continuing around the sacque (except the neck).

4th Row: Same as 3d row, only going around the neck.

5th Row: Same as 4th row.

6th Row: For the edge make 7 double stitches of silk in center of 4 doubles in wool, and fasten scallop in space between 4 double stitches in wool; this completes the border; the sleeve is done in the same way, only making 3 rows of double stitches in wool and 3 rows of chain, finishing with 7 stitches in double, in silk. Finish sacque with cord and tassels.

SHELL STITCH FASCINATOR.
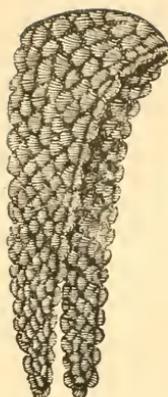

Chain 7 d. c. into first stitch of chain 10 times, turn chain 4 d. c. back into the same stitch 7 times s. c. into middle of first shell, d. c. into last stitch of shell 7 times, turn chain 4 d. c. into same stitch 7 times, s. c. into middle of next shell, 7 d. c. into the stitch between the shells and s. c. into the middle of next shell, 7 d. c. into the last stitch of next shell, turn and repeat from * increasing 1 shell on each row, until the fascinator is $\frac{1}{2}$ yd. wide and $1\frac{1}{2}$ yd. long, the border for this fascinator is the same shell, only d. c. 16 times into same place, drawing up the thread so as to make the stitches long and fluffy.

STAR STITCH TOBOGGAN CAP.

(You will find directions for making star stitch in this book.)

Chain 5 join in a ring, fill with 24 d. c. join.

Chain 3, make 3 plain rows of stars around, after this increase 6 stars every time around, until the cap measures 8 inches across (to increase means two stars in one place), crochet the stars plain around without increasing until the cap measures $12\frac{1}{2}$ from the point to the bottom. Hold the cap with the wrong side out and reverse the rows until you have 4 rows of stars which turns up for the border, finish with a shell or scallop. This cap plaits down in the front, taking the point and catching it down halfway, then make another plait down to the border, finish off the front with 3 pom-pons.
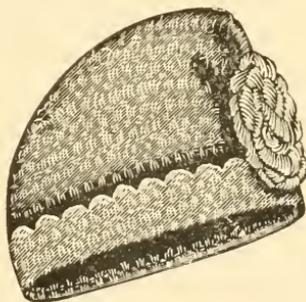

To make the pom-pons wind the yarn around the four fingers 60 times, tie in the middle, and clip the ends off even.

TRICOT AND CROCHET DRESS.
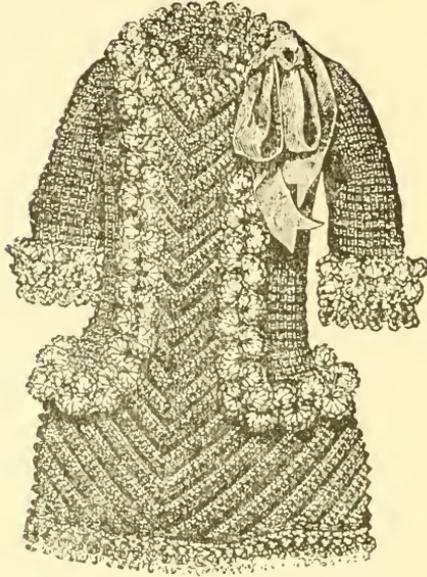

The waistcoat and skirt are worked in one piece in ribbed crochet, commencing at the throat with 43 chain.

1st Row: With blue wool pass over the first stitch, one double into each of 20 stitches, three into the next, one double into each of 20 stitches; the first and last stitches in each row are not worked into.

2d Row: One double into the back horizontal loop of each of 20 stitches, 3 into the next, 1 double into the back horizontal loop of each of 20 next stitches; all the rows are like the 2d; 2 rows are worked with blue and 2 with white wool. After you have worked 25 ribs of the length required for the waistcoat, continue to work 6 more ribs, but work 2 stitches into the first and last of the 43 stitches to increase the number of stitches for the front of skirt. When you have 30 ribs, counting from the top, work on one side only of the point, pass over the first stitch at the bottom of skirt, and work 2 into the end stitch

at top of the skirt. Continue to work in this way until you have
40 ribs. Then, to make the end of the work square, pass over
the edge stitch at bottom as before, and work up to the last
three in the row. The other half of skirt is worked in the
stitch but same way.

For the bodice commence at the lower edge, make a chain
the length required; about 118 will be sufficient.

1st to 6th Row: Work up and off with blue wool in plain
tricot.

In the 7th row decrease 6 times at equal distances by
working up two loops together. There should be 1 decrease
under each arm, and 4 in the back; continue to work in plain
tricot, decreasing 6 times in every 3d row, until you have de-
creased to the size required for the waist; work five rows
without increase or decrease; now increase by working up 2
loops through 1 under each arm, and above the 2 center de-
creases in the middle of the back; increase 5 times with 2
plain rows between each increase, or more if necessary.

Now for the right front, work up 20 stitches, work off 2
together, work off in the usual way; work up 19 stitches, work
up 2 together, work off in the usual way; work up 18, work
up 2 together, work off in the usual way; work up 17, work
up 2 together, work off in the usual way; now work without
increase till you reach the top of the arm.

For the shoulder work up 16 stitches, work off, work up
14, work off, work up twelve, work off, work off ten, work up
all the loops to the end of the row, work off. The other front
is worked as described for the first.

For the back work on the remaining stitches without in-
crease or decrease till you have reached top of the shoulder;
decrease for slope of shoulders as you did for the front, that
is, by working on 2 stitches less at each end in every row un-
til you reach the neck.

For the sleeve make a chain the length required across
the top of arm. To shape the sleeve a little at the top work

the 1st row on all the loops, 2d row on 21 center loops, 3d row on 29 loops, that is, 3 more on each side of the 21 loops, then work on all the loops for about 14 rows. Decrease twice in the center of each alternate row by working up 2 loops together twice until the sleeve is the length required. Now sew the bodice up on the shoulders, sew in the sleeves.

The waistcoat must next be sewed in, the edge of the front must be placed a little over the waistcoat at the waist, in order to give it a good shape. Sew the 2 ends of the skirt together, and arrange it in 4 box-plaits to fit the edge of bodice; and sew them together.

For the scalloped trimming work round the bodice as follows:

1st Row: With white wool draw up a loop through a stitch, turn the wool over the hook, draw up another loop, draw through all the loops on the hook together, one chain, repeat, working into each stitch.

2d Row: Like the first.

3d Row: With blue wool work one loosely into each stitch of last row. This trimming will form a frill which must be arranged in scallops and fixed by a needle and wool. The same trimming forms a cuff for the sleeve. For the edge of skirt work with white wool; draw up a loop through a stitch, turn the wool over the hook, draw up a loop through the next stitch, draw through all the loops on the hook together, 3 chain, one double into the 1st. Repeat from beginning of the row.

4th Row: With blue wool, like the first, working into the stitches of last row behind the picots. A bow of ribbon is sewed on the left shoulder, and one in the center of the back at the edge of bodice. The little frock should have a *balayeuse* of muslin edged with lace put into the skirt where it is joined to the bodice, as this gives a refined finish.

peating from the 11th row. The first 4 loops on the edge of each scallop are to be joined in the working to the last 4 loops of the previous scallop, by working 5 s. c., then taking the needle out, putting it through the middle s. c. of previous scallop, drawing the loop through, and finishing the 10 s. c. as usual. GENTS' WOOL CAP.

Chain 4, join and fill ring with single crochets, single crochet around until you have it 5 inches from center to the outside, keep it flat by increasing (going twice into same stitch) until it is this size, s. c. around without increasing until the rim is 2 inches wide. Reverse the cap holding wrong side toward you and s. c. until the band that turns up as $1\frac{1}{2}$ inches wide: finish with small scallop.

This cap can be made with any close stitch, using the same measures.

CROCHETED TOILET SHOE.

1st Row: Make a chain of 12 stitches, miss 1 stitch and work back on the next 5 with 1 s. c. in each, 3 s. c. in the 6th, and 5 s. c. in the remaining 5 stitches, work 1 ch. at the end and turn.

Continue this way, increasing by working 3 stitches in the center of every other row, until the work reaches the ankle. If this increases too fast for a foot with a low instep, work two rows plain between. then increasing only in every 3d row.

Crochet to the center of the last row necessary to bring the work to the ankle and then make a chain of 16 stitches, as

from this point one-half of the shoe is worked at a time and afterward joined at the back.

Work back and forth on these rows until the strip is long enough to reach to the heel, then break the wool and commence at the bottom edge on opposite side of front. Crochet to the center where the extra stitches were added on the other side, and make a chain of 16 stitches as before.

Work back and forth on this strip until it contains as many ridges as the first side, then join at the heel. Use lambs' wool soles; sew the shoe to the sole with close stitches, and finish the top with loop-knitting or crocheting. Fasten on each side of the front opening (two on each side) four large metal eyes, such as come on cards with hooks; lace a narrow ribbon in them and tie a bow at the top.
